CAMPUS TO CORPORATE MEET OUR PROFESSIONALS

About Meet the Professional Program

Are you a high school or college student studying commerce? Do you have any goals? Have you set the goal and chosen commerce? Are you aiming for a professional level? Then Accountants Academy will offer valuable guidance about pursuing prestigious qualifications such as CA/ACCA.

The Meet the Professional Program is designed to help students achieve their goals through face-to-face interactions with accounting professionals directly on the school or college campus. They share their valuable experiences and offer guidance in setting and pursuing career objectives. By providing guidance as students transition into the accounting profession, they play a crucial role in illuminating the path towards achieving CA or ACCA qualifications.

Our Courses *(Professional Courses)*

CA

Accountants Academy offers CA courses at two levels: intermediate, and final, led by industry experts. We step up your CA preparation, helping you ace the CA exam with confidence. For CA Inter, During the first 2.5 months of CA Inter, you will attempt rigorous chapter-wise unit tests on a weekly basis, ensuring a strong understanding of every topic. This is followed by a revision phase that helps you recall concepts and minimize test anxiety. This revision phase is followed by exam practice. Accountants Academy has tied up with CA-REP to offer residential exam practice for our students. With CA exam practice, success is certain, as they ensure a focused study environment, structured schedule with a balance of study, practice and extra-curricular activities and access to expert guidance 24x7. Moreover, the program includes mock tests that help students become accustomed to exam pressure, and timing so that they tackle the real exams without fear.

Whereas, our CA Final Course is designed to lead you towards triumph at the end of your CA journey. Emphasizing constant exam practice and doubt clearance from our proficient CAs, our course makes you ready to face the complexities of the final exam.

ACCA

The ACCA course offered by Accountants Academy helps you build the skills required to shine in the accounting industry. Our ACCA course is further divided into three levels: foundation level, skill level, and professional level. The foundation level consists of 4 papers, the skill level consists of 5 papers, and the professional level consists of 4 papers. Pursue an ACCA course along with your normal degree. We offer you an option to carry out coaching with exam practice for ACCA.

Residential Exam Practice

Accountants Academy has tied up with CA-REP to offer residential exam practice for our students. Residential exam practice for CA/ACCA students offers a focused study environment, free from everyday distractions, which is essential given the complexity of these qualifications. It provides access to expert-led sessions and a structured study plan that covers the entire syllabus, ensuring thorough preparation. Candidates benefit from intensive revision, realistic mock exams under timed conditions, all of which enhance understanding and exam readiness. The program also supports stress management through extra-curricular activities and fosters motivation and discipline, critical for the rigorous demands of CA/ACCA exams.

Practical Accounting Diploma

Anyone can pursue our practical accounting diploma. Students can also complete it alongside their CA or ACCA studies. Our practical accounting diploma courses equip you with the vital skills and experience required to secure an accounting job. These courses include internships with accounting professionals, allowing you to gain real-world experience in the industry. This hands-on training helps bridge the gap between theory and practice, improving your employability and confidence.

Practical Accounting Diploma Courses With Internship

We offer a range of practical accounting diploma courses, such as ADLA INT, IDCAF and more. Our ADLA INT program is designed to equip you with essential skills and real-world experience. This comprehensive program integrates various components, including AI Tools for Accounting and Live Certification Internship. Students will gain hands-on experience with real-world accounting tasks, develop key accounting skills, and make themselves more attractive to potential employers.

With a duration of 6–9 months, our diploma courses help you gain the in-demand practical and theoretical skills and confidence required to become an accounting professional.

Accounting Practical Aptitude Test (APAT)

Most of the students have doubts about whether to do a degree after +2 or prepare for CMA, ACCA, or CA, which is a professional degree. Every student has doubts about whether he or she can do it by pursuing a degree or a professional course. APAT helps them resolve these. In APAT, with the help of auditors and psychologists, a student's suitability for a job in the accounting field is assessed. They give students a task to complete and identify a student's true potential. The team will suggest a suitable field for the student. APAT can be done for free.
